## Postgraduate Virtual **Open Days**

Applied Animal Behaviour and Animal Welfare: Why study a masters with us?

Cynthia Naydani & Susan Jarvis

**EDINBURGH**  
xtraordinary futures await

# Meet the team

Cynthia Naydani

Programme co-Director

Lecturer in One Health & Animal Welfare

Research interests in human behaviour change, global food systems, equine

Susan Jarvis

Programme co-Director

Personal Chair of Animal Welfare Science & Education

Research interests in pigs, aquaculture, maternal behaviour

# Learning outcomes

- demonstrate a critical understanding of the principal theories and concepts in animal behaviour and welfare.
- plan and execute a significant project of research on applied animal behaviour or animal welfare by applying knowledge and a range of specialised techniques.
- critically review, consolidate and synthesise knowledge to address contemporary issues in animal welfare.
- communicate about animal welfare and animal behaviour, using appropriate methods, to a range of audiences with different levels of knowledge/expertise.
- exercise substantial autonomy and initiative in your own work and make informed judgements, on your own or collectively, on challenging animal welfare issues.
