

# UKRI AI Centre for Doctoral Training in Biomedical Innovation

Information session: 21 November 2025

UKRI AI Centre for Doctoral Training  
in Biomedical Innovation

## AI4BI CDT at a Glance

60+

Fully funded  
studentships  
across 5 intakes

£8m+

Investment and  
resources from  
UKRI and partners

30+

External partners  
from industry and  
other sectors

# What our CDT students can expect

Innovative research  
with real-world impact

Well-rounded training  
and development

Extensive networks  
and collaboration

Supportive and fair  
research culture

Public engagement  
and communication

Readiness for careers  
in different sectors

# Our Partners

## Example projects for 2026 entry

### **AI for Enhanced Decision Making for Imaged Abnormalities of the Pancreas**

Supervisors: Eleonora D'Arnese,  
Amir Vaxman and Damian Mole

### **Identifying Emerging Zoonotic Disease Hotspots**

Supervisors: Oisin Mac Aodha  
and Rowland Kao

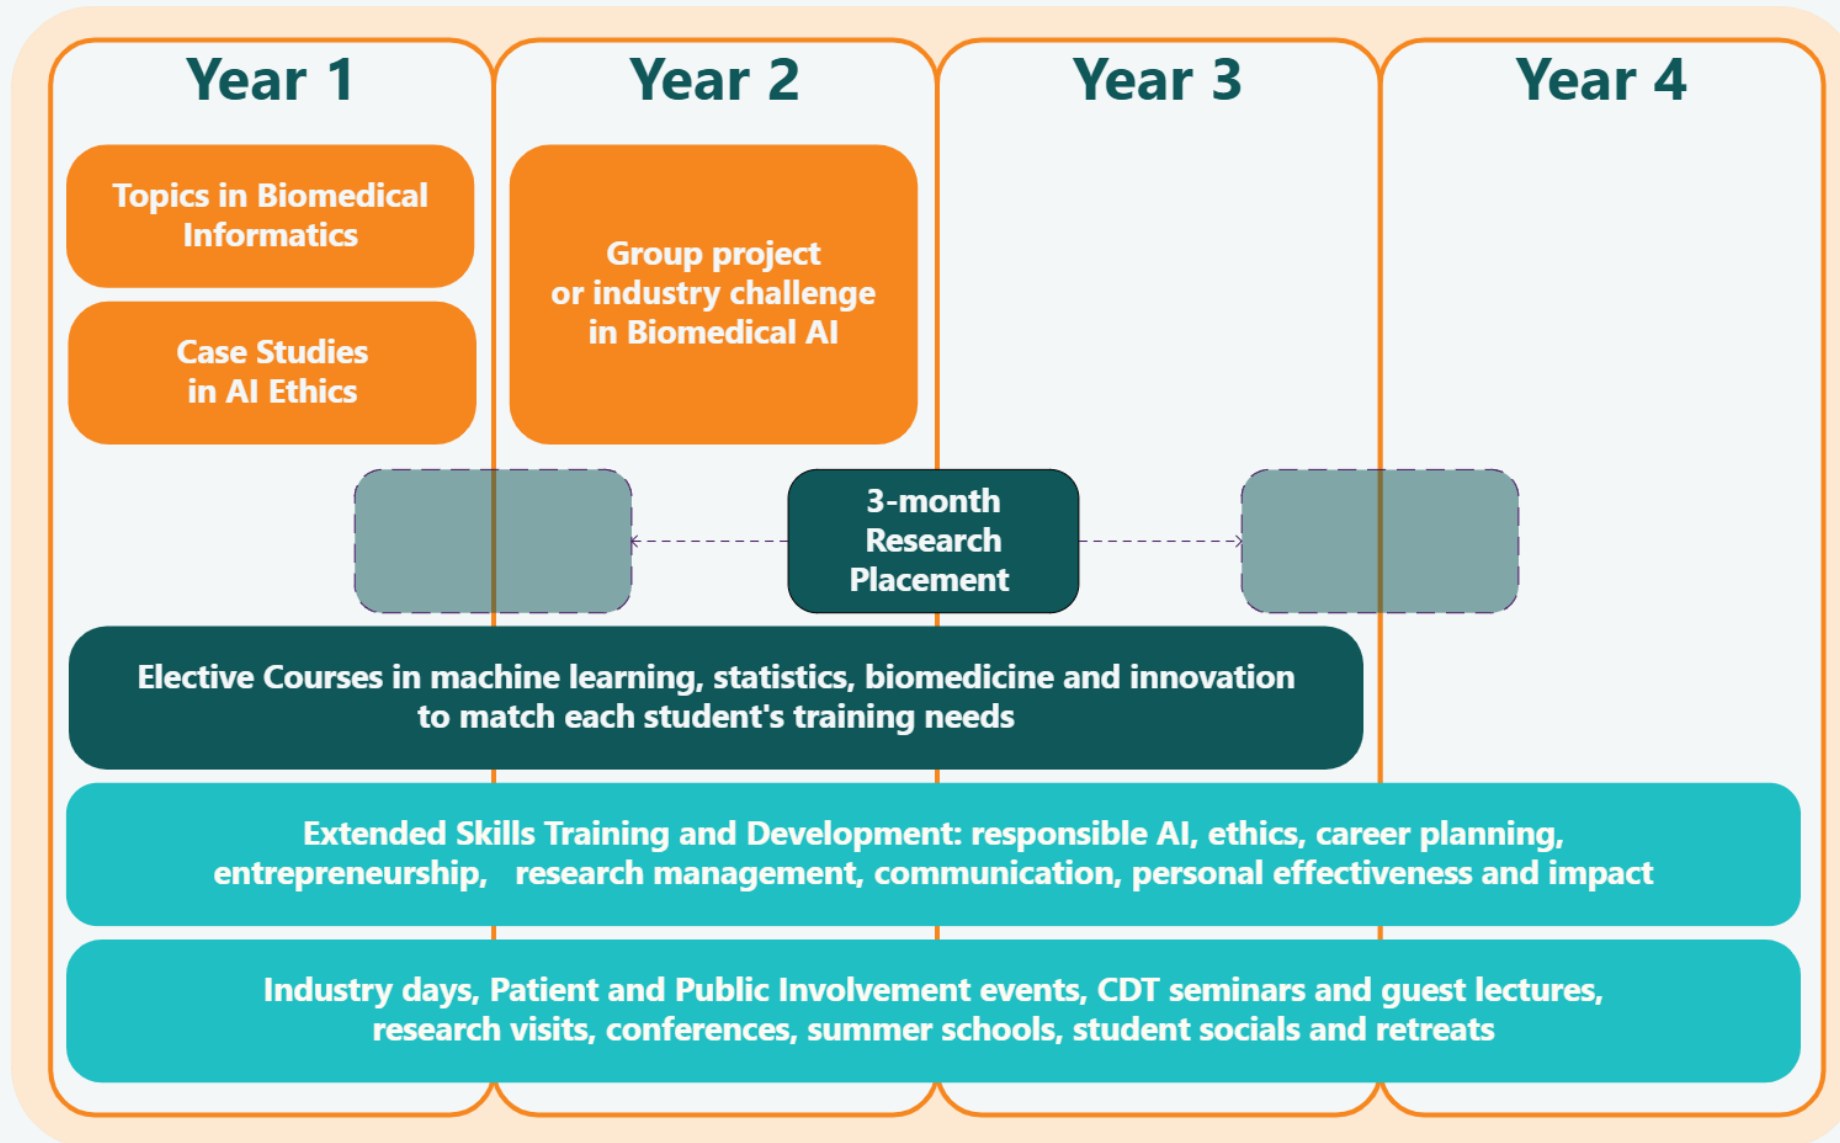

### **AI-Driven Multimodal Alignment for Predicting Treatment Outcomes in Renal Cell Carcinoma**

Supervisors: Ajitha Rajan, Siddarth N.  
and Alexander Laird

### **Quantifying Dementia Progression and Emotion Recognition in a VR Environment**

Supervisors: Arno Onken and Vito De Feo

# Training and Development Structure

# Funding & Resources

££

## Tax-free stipend for 4 years

(£20,780 in 2025/26)

££

## Tuition fees for 4 years

Both for UK and International students

££

## At least £8000 for travel and research costs

Additional funds available for special projects

££

## High-spec laptop and access to GPU & CPU clusters

Including Eddie and EIDF (10,000 CPU, 200 A-100s, 150 H-100s, and 16 H-200s, 12PB storage, 60TBRAM & Cerebras 2nd and 3rd generation wafer-scale GPUs)

££

## Allowances for sick pay, parental leave, disability adjustments

££

## Allowances for sick pay, parental leave, disability adjustments

Student visa fees and health surcharge are NOT covered

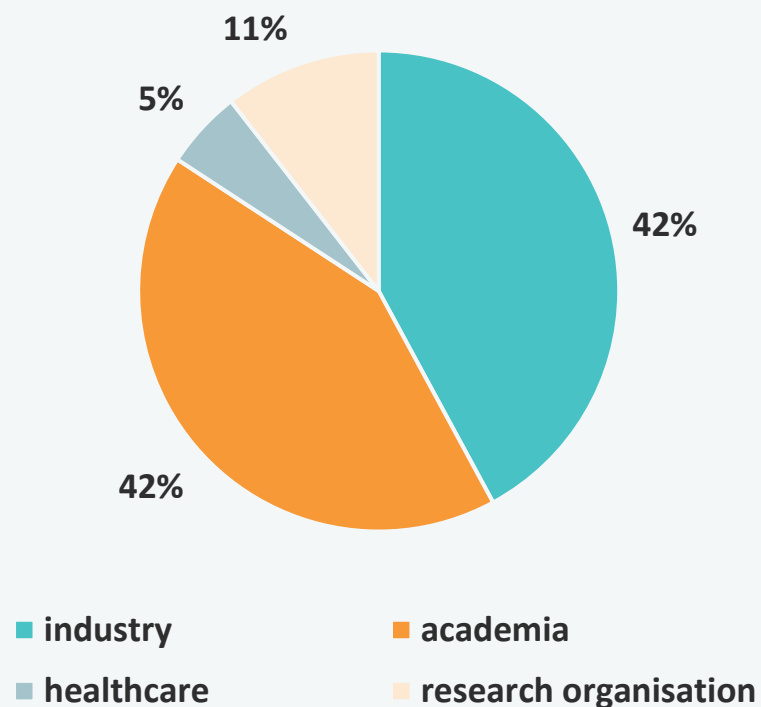

# Supportive Environment for All

- ✓ Student Wellbeing & Counselling Service
- ✓ Disability and Learning Support Service
- ✓ EUSA (Students' Association) Advice Place
- ✓ Edinburgh Global
- ✓ Inclusive and family-friendly policies
- ✓ Student societies
- ✓ Funding and flexible working provisions for illness, family leave and caring responsibilities

# Alumni Career Destinations

## Employers include:

- Genomics England
- Novartis
- University College London (UCL)
- AstraZeneca
- Imperial College London
- University of Edinburgh
- Drug design startups
- NHS
- ... and others

# Who we're looking for

- Strong foundation in at least one core area
- Genuine motivation to develop expertise in complementary areas
- Interest in responsible and ethical AI for health
- Collaborative and open mindset
- Willingness to develop a broad skill set
- Enthusiasm for engaging public and patient communities

UKRI AI Centre for Doctoral Training  
in Biomedical Innovation

# How to apply

# Application process - at a glance

1. Review project proposals and decide which are of interest to you
2. Do some research into the projects of interest
3. Approach the supervisors of the projects of interest
4. Select your top 3 projects
5. Prepare supporting documents
6. Complete online application form
7. Wait for results
8. If successful, submit application to University of Edinburgh

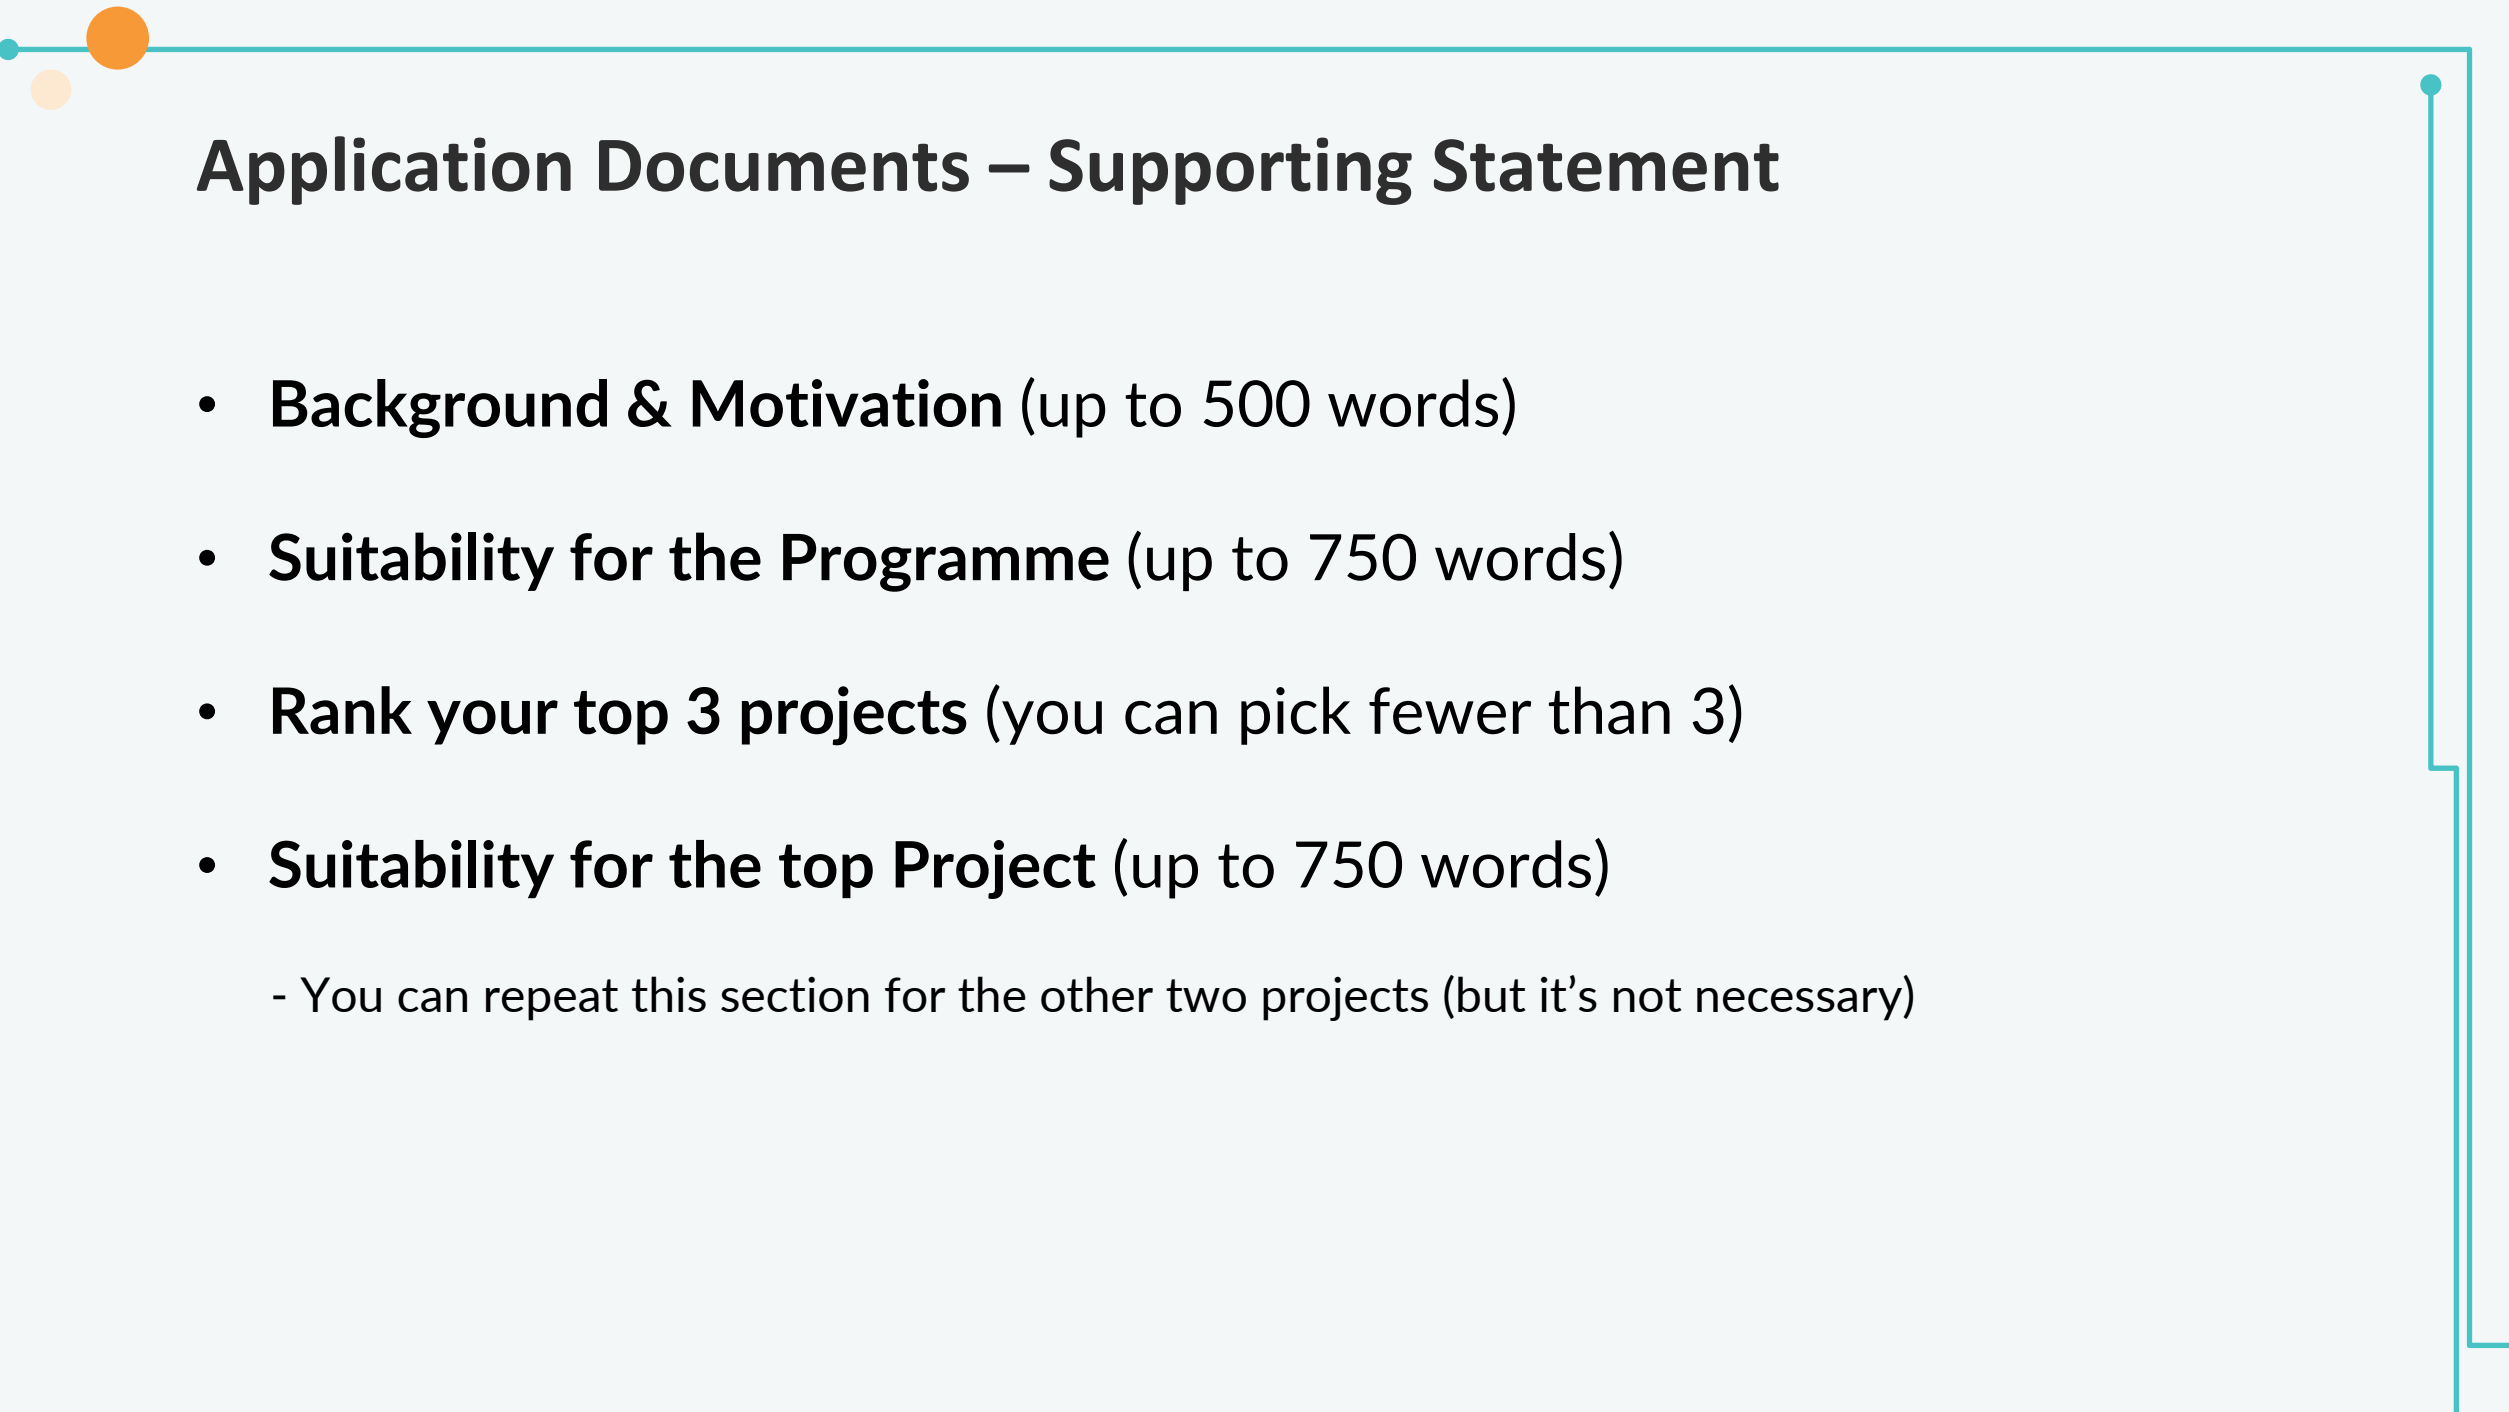

# Preparation

- Select projects you're interested in
- Do some research
- Approach supervisors

## Application Documents – Supporting Statement

- **Background & Motivation** (up to 500 words)
- **Suitability for the Programme** (up to 750 words)
- **Rank your top 3 projects** (you can pick fewer than 3)
- **Suitability for the top Project** (up to 750 words)
  - You can repeat this section for the other two projects (but it's not necessary)

# Application Documents – CV

- **Don't just list your skills – explain what you have done and what the outcome was**
  - List both formal education and any self-directed learning or online courses
  - Include relevant work experience if you have any
  - Describe any relevant research projects, however small
  - Provide links to your code repositories (e.g. GitHub or similar), if you have any
  - If you have any conference or journal publications (including preprints), participation in public engagement, poster presentations etc, include details of those too
  - Do NOT include a photo
- 

# Application Documents

- Supporting Statement
  - CV
  - Degree Certificate(s) and transcript(s) – including those in progress
  - Translation of degree certificate(s) and transcript(s) into English
  - All documents must be in PDF
- 

## Submit application form

- Read instructions on our website to save yourself time and effort
- Make sure to double-check everything, especially contact details
- Take time to complete demographic questions – they help us assess how equitable our practices are
- Demographic data will NOT be shared with shortlisting panel at any point

## If you are successful for CDT studentship

- Application to University of Edinburgh
- 2 references
- Proof of English language competency
- Certified translations

# Timeline

**20 January**

- Deadline for applications

**23-27 February\***

- Interviews

**5 March onwards**

- Studentship offers

\*We may hold additional interviews for Home applicants in March
