Semester 3
May – August
Dissertation

MSc Business Analytics

Meet the Programme Director...

Dr Jamal Ouenniche

**Programme Director
Professor and Chair in Business Analytics**

Jamal.Ouenniche@ed.ac.uk

MSc Business Analytics

In the age of Big Data, organisations hold more information about their business environments than ever before. There is growing demand for employees who can analyse data to gain insights and out-think competitors.

Our full-time Masters programme in Business Analytics will help you develop the analytical skills needed to make informed decisions that drive organisational success.

During your studies, you will enhance your understanding by combining theoretical knowledge with practical application.

26th

in the QS Business
Analytics Master's
Rankings (2026)

10th

in Europe in the QS
Global University
Rankings (2026)

Courses

Semester 1: September – December

All courses in this semester are compulsory.

- Predictive Analytics and Modelling of Data
- Prescriptive Analytics with Mathematical Programming
- Principles of Data Analytics
- Python Programming

Semester 2: January - May

Choose 3, 4 or 5 courses.

- Analytics of Decision Making under Multiple Criteria

MSc Banking Innovation and Risk Analytics

Meet the Programme Director...

Dr Wynne Lam

**Programme Director MSc Banking
Innovation & Risk Analytics
Senior Lecturer in Business Economics**

Wynne.Lam@ed.ac.uk

MSc Banking Innovation and Risk Analytics

The digital era has transformed the banking and financial sector, with banks now harnessing the power of data and new technology.

Our full-time Masters programme in Banking Innovation and Risk Analytics will provide you with the analytical and programming skills needed to manage risk in modern day banking processes.

During your studies, you will advance your knowledge of a range of banking innovations and technologies.

Courses

Semester 1: September – December

All courses in this semester are compulsory.

- Statistics for Analytics
- Programming for Risk Analytics
- Corporate Reporting Analysis
- Introduction to Risk Management in Banks

Semester 2: January - May

Compulsory courses:

- Credit Risk Management
- Topics in Banking Innovation

Option courses (choose 2, 3 or 4):

- Investment Management
- Data-Driven Business Insights
- Statistical Learning in Banking
- Econometrics for Risk Analytics
- Economic Principles of Blockchain and Cryptocurrencies

Dissertation

Your Masters dissertation is a significant piece of individual research that gives you the opportunity to study a topic in depth.

Client Sourced Dissertation (CSD)

A student will carry out an authoritative piece of work on a business or management issue identified by a project client.

The benefits of a CSD include:

- Exposure to a real-world project as defined by a company's business needs
- Enhances technical skills while further developing transferable skills
- Gain an insight into the sponsoring company
- Opportunity to network and raise your profile
- Enhances employability and adds to your CV

Industry engagement

- Guest speakers, workshops, and seminars
- Alumni panels
- Group consultancy projects
- Client Sourced Dissertation
- Employability & Careers Expo

Masters of Change

We are proud to share inspiring alumni stories and continuously expand our international network of change makers.
